

BRAND STANDARDS

FULL BRAND GUIDELINES

A bilingual identity system for bakery,
cafeteria, delivery and retail touchpoints

VERSION 1.0 • AUGUST 2026

الطعم الأصيل ... سر التميز

One system, every customer touchpoint

01 Brand foundation

Promise, positioning, audience and personality

02 Identity

Logo, colour, typography and bilingual layout

03 Expression

Illustration, photography, messaging and voice

04 Applications

Menus, signage, packaging, uniforms and digital

05 Production

Print checks, file control and approvals

Kashkawan is familiar food, made memorable

Kashkawan

قشقوان

A neighborhood bakery-cafeteria in Ajman centred on oven-fresh Levantine staples: manakish, pastries, pizza, fresh Arabic bread and juices.

AUTHENTIC

أصيل

FRESH

طازج

GENEROUS

كريم

LOCAL

قريب

Brand idea • The warmth of the neighborhood oven

دفعاء فرن الحي

The promise begins at the oven

BRAND PROMISE

Freshly baked Levantine comfort, served generously and simply.

مخبوزات شامية طازجة، تُقدَّم بسخاء وبساطة.

PROOF CUSTOMERS CAN SEE

Visible food freshness and appetising texture

Clear, accessible prices and product names

Bilingual service with equal respect for Arabic and English

A grounded visual language: wheat, bread, wood and warm hospitality

Never promise luxury, exclusivity or novelty at the expense of freshness and familiarity.

For everyday visits and shared tables

01 Nearby families

Reliable favourites, generous choice, fair value

02 Workers & commuters

Fast ordering, clear prices, fresh food to go

03 Delivery customers

Instant recognition, appetising imagery, easy contact

POSITIONING

More crafted than fast food. More accessible than a specialist restaurant.

Four pillars keep every decision on-brand

01

Authentic

Protect familiar
Levantine flavours and
the existing Arabic-first
heritage.

أصيل

02

Fresh

Show oven heat,
texture, ingredients and
daily preparation -
never generic stock
food.

طازج

03

Generous

Communicate
abundance through
choice, portion, warmth
and helpful service.

كريم

04

Clear

Make names, prices,
ordering and contact
details quick to
understand in both
languages.

واضح

Decision test: if an idea looks premium but makes the food feel distant, cold or unclear, it is not Kashkawan.

The illustrated arch anchors the brand

الطعم الأصيل ... سر التميز

PRIMARY SIGNATURE

Use when the Arabic tagline remains clearly readable.

PRIMARY MARK

Use where size or distance makes the tagline impractical.

Arch

Jerusalem-style bread form / oven heritage

Wheat

Fresh baking, grain and abundance

Wood

Fire, craft and grounded hospitality

Wordmark

Arabic identity supported by consistent Latin transliteration

Protect detail with clear space and scale

CLEAR SPACE

X = the height of one central bread block. Keep at least 1X free on every side.

MINIMUM SIZES

55 mm

Full signature in print
300 px in digital

30 mm

Primary mark in print
160 px in digital

Below 30 mm

Do not force the detailed arch to remain readable. Use an approved small-use wordmark asset prepared from the master artwork.

Never rebuild the mark from typed text or redraw individual elements.

Match each approved logo to its medium

FULL COLOUR

Preferred on warm paper or white

ONE-COLOUR GREEN

Economical print, stamps and labels

REVERSED

Use on solid Heritage Green

ONE-COLOUR BROWN

Natural packaging and craft substrates

For Pantone or specialty inks, approve a physical press proof; do not choose a spot colour from a screen preview.

Consistency matters more than decoration

Do not stretch or compress

Do not recolour arbitrarily

Do not use on busy food

Do not crop wheat or arch

Do not add shadows or effects

Do not add Cafeteria inside mark

A palette of oven, wheat, paper and herbs

HERITAGE GREEN #2A5D47	WHEAT BROWN #523B16	WARM PAPER #F5F2EA	TOAST ACCENT #C69C62	OVEN INK #252A27
Primary brand colour	Logo linework and warmth	Main background	Accent only	Body copy
RGB 42 / 93 / 71 CMYK 55 / 0 / 24 / 64	RGB 82 / 59 / 22 CMYK 0 / 28 / 73 / 68	RGB 245 / 242 / 234 CMYK 0 / 1 / 5 / 4	RGB 198 / 156 / 98 CMYK 0 / 21 / 51 / 22	RGB 37 / 42 / 39 CMYK 12 / 0 / 7 / 84

CONTRAST RULES

GREEN / WARM PAPER

6.81:1 Approved for normal text

BROWN / WARM PAPER

9.40:1 Approved for normal text

TOAST / WARM PAPER

2.25:1 Accent only - not body text

CMYK values are starting points. Each printer must provide a calibrated proof on the chosen substrate; Pantone matching requires physical swatch approval.

Typography makes ordering easy

PRIMARY DISPLAY

Co Headline Bold

Fresh from the oven

طازج من الفرن

BODY AND UTILITY

Co Headline Regular or Segoe UI

Use for menu descriptions, addresses, prices, operating information and digital interfaces. Keep numerals open and easy to scan.

Fallback pair: Noto Sans Arabic + Noto Sans

TYPE HIERARCHY

H1 **Bold** 48-64 pt

Short, confident

H2 **Bold** 28-36 pt

Category headings

BODY **Regular** 10-14 pt

Print descriptions

PRICE **Semibold** 12-18 pt

Aligned numerals

CAPTION **Regular** 8-10 pt

Legal / utility

Use no more than two font families in one customer-facing piece.

Arabic leads; English supports with equal care

ARABIC ZONE

مناقيش

جبنة عكاوي · زعتر · لحمة

اقرأ من اليمين إلى اليسار
حافظ على المحاذاة اليمنى

ENGLISH ZONE

Manakish

Akkawi cheese · Zaatar · Meat

Read left to right
Keep left alignment

Hierarchy	Match category importance and visual weight, not literal line length.	Order	On signage and menus: Arabic right, English left. Keep the price column neutral between them when possible.
Separators	Use a centred vertical bar: بيتزا Pizza. Do not mix Arabic and English inside one sentence.	Names	Write Kashkawan exactly as approved. Do not vary transliteration or add 'Cafeteria' to the logo.
Numerals	Use one numeral style per piece. Western Arabic digits are recommended for quick bilingual price scanning.	Line breaks	Break at phrase boundaries. Never isolate Arabic prepositions or split the brand name.

Illustration adds craft, not noise

ENGRAVED FOOD ILLUSTRATION

Approved subjects: bread, manakish, wheat, vegetables, herbs, olive oil, wood and oven tools.

ARCH PATTERN

RULES

- Keep linework single-colour: green, brown or a low-opacity neutral.
- Use patterns as borders, dividers or quiet backgrounds - never behind dense menu text.
- Keep background line art at 4-8% opacity for print readability.
- Do not mix illustration styles in one piece.
- Avoid cartoon icons, neon outlines and glossy 3D graphics.

Repeatable one-colour assets work best for labels and low-cost printing.

Photography makes freshness tangible

THE KASHKAWAN IMAGE

Warm, abundant, textured and close enough to taste.

- LIGHT** Warm directional light; preserve bread texture and cheese colour.
- ANGLE** 45-degree or overhead for shared spreads; eye-level only for hero products.
- SURFACE** Dark wood, natural cloth, craft paper, stone and real preparation tools.
- STYLING** Generous but believable. Use ingredients that actually belong to the dish.
- COLOUR** Natural greens, tomato reds and toasted dough; avoid heavy orange filters.
- CROP** Leave intentional quiet space for bilingual copy when the image will carry text.

Speak like a proud neighborhood host

Warm

Welcome people without sounding scripted.

Direct

Lead with product, freshness, price or action.

Proud

Celebrate heritage without exaggerated claims.

Helpful

Make ordering and delivery information effortless.

APPROVED MESSAGE EXAMPLES

Fresh from the oven, made for your table.

طازج من الفرن إلى مائدتكم

Your neighborhood stop for fresh manakish and bread.

وجهتكم القريبة للمناقيش والخبز الطازج

Authentic taste, every day.

الطعم الأصيل كل يوم

DO Name the food • Mention freshness • Give a clear action

AVOID Luxury clichés • ‘Best ever’ claims • Excessive exclamation marks

Menus sell the food before explaining it

RECOMMENDED MENU SYSTEM

01 Food first

Reserve 42-50% of a spread for one appetising category image.

02 Mirror hierarchy

Arabic and English category names carry equal weight; descriptions may be smaller.

03 Prices scan vertically

Use a dedicated price axis and tabular numerals. Keep AED in the section heading, not every row.

04 Quiet texture

Keep line art below 8% opacity and outside the primary reading path.

Canonical service line

Pizza | Pastries | Manakish | Maqdisi Kaak Sandwiches | Fresh Arabic Bread | Appetizers |
Fresh Juices

Signage needs one hero message

- | | | | |
|------------------------|---|----------------------|---|
| 1. HERO | Centre the illustrated logo and Arabic name. It must own the longest viewing distance. | 2. DESCRIPTOR | Use Kashkawan Cafeteria / قشقوان كافتيريا once, as a secondary identification line. |
| 3. PRODUCT LINE | Keep the canonical service categories on one calm baseline. Use vertical bars consistently. | 4. LEGAL | S.P.S.-L.L.C. belongs in a small legal line, never inside the logo. |

Distance check: if the logo, name and main descriptor are not readable in a phone photo from across the road, simplify.

Packaging feels crafted in one colour

PACKAGING PRIORITIES

Warm paper or kraft base with Heritage Green and Wheat Brown.

Use the one-colour green mark for bags, liners, stickers and greaseproof paper.

Keep food-contact printing simple; approve inks and substrates with the supplier.

Place delivery contact and website in one consistent utility zone.

Never place a detailed logo across folds, seals or die-cut windows.

UNIFORM DIRECTION

FRONT OF HOUSE

Heritage Green shirt or apron; Warm Paper embroidered mark; name in clear white type.

BAKERY / KITCHEN

Warm Paper or white base; green apron/cap; small high-contrast chest mark.

DELIVERY

Green outerwear with reversed primary mark; reflective safety details remain separate from the logo.

Recognisable before the caption is read

TEMPLATE FAMILIES

4:5 PRODUCT

One hero dish, short bilingual product name, price, logo.

9:16 STORY

Top safe zone for logo, central food crop, lower zone for offer or action.

1:1 UTILITY

Opening hours, location, delivery number and announcements.

CONTENT MIX

50%

Food and freshness

30%

Offers and ordering

20%

People and place

Always leave a clean margin around the logo; platform interface elements must not cover the mark, price or phone number.

Approve the proof, not the promise

01 COLOUR

Use the approved HEX/RGB for screens and tested CMYK builds for print. Require a physical proof for spot colours.

02 LOGO

Supply vector AI/EPS/PDF/SVG whenever available. Never trace a screenshot or WhatsApp image.

03 IMAGES

300 ppi at final print size. Check crop, sharpening and skin/food colour on the actual substrate.

04 BLEED

Use the printer's specification; default starting point is 3 mm for cut sheets and 10-20 mm for large-format finishing.

05 TEXT

Outline only the final supplier copy. Keep an editable master with live text and packaged fonts.

06 ARABIC

Proof shaped letters, punctuation, right-to-left order and line breaks from the exported supplier PDF.

07 FINISH

Keep key marks away from folds, seams, eyelets, hems, windows and food-contact restrictions.

08 FINAL

Review at 100%, print a reduced test, verify QR/phone/URL, and archive the approved PDF with date and version.

Supplier release requires: dimensions • material • colour profile • bleed • finishing • quantity • proof approval

One source of truth protects growth
